has successfully completed the online, non-credit Specialization

# Generative AI Leadership & Strategy

The Generative AI Leadership & Strategy Specialization on Coursera is an innovative program designed to empower leaders with the skills needed to harness the full potential of large language models like ChatGPT, revolutionizing leadership strategies and productivity in business and personal life. Throughout the course, participants will learn to pen effective prompts to command these AI systems, unlocking emergent intelligence for remarkable problem-solving capabilities. This training covers a vast spectrum of practical applications, from creating flawless agendas to honing proposal writing, engaging in strategic brainstorming, and navigating intricate HR dynamics.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
